QR (quick response) codes

The screenshot displays the QRStuff.com website interface. At the top, the logo "QRStuff.com" is accompanied by the tagline "Get your QR codes out there!". To the right, there are input fields for "Email" and "Password", along with "Register", "Forgot Password?", and "LOG IN" links. A navigation bar includes "HOME", "ABOUT THIS SITE", "QR CODES", "PHONE SOFTWARE", "EXAMPLES", "FAQs", and "AFFILIATES". Social media icons for Twitter, Facebook (with "Like 16K"), and a "BLOG" link are also present.

A promotional banner reads "SUBSCRIBERS GET MORE QR STUFF" with an arrow pointing to a row of feature icons: "MANAGEMENT DASHBOARD", "PROJECT FOLDERS", "ANALYTICS", "VECTOR OUTPUT", "DYNAMIC QR CODES", "BATCH PROCESSING", "UNLIMITED QR CODES", "PDF REPORTS", and "PASSWORD QR CODES". A "SIGN UP NOW" button is located to the right of these icons.

The main section is titled "QR CODE GENERATOR" and is divided into four numbered steps:

- 1 DATA TYPE**: A list of options with radio buttons: Website URL (selected), YouTube Video, Image File, PDF File, Google Maps Location, Twitter, Facebook, LinkedIn, Instagram, FourSquare, App Store Download, iTunes Link, Dropbox, and Plain Text.
- 2 CONTENT**: A "Website URL" input field containing "http://". Below it, "Encoding Options" includes "Static - Embed URL into code as-is" (selected) and "Dynamic - Use our qrs.ly URL shortener". A link "What's the difference?" is provided, followed by a note: "Subscribers get analytics reporting and QR code editing with dynamic QR codes."
- 3 FOREGROUND COLOUR**: A color selection interface with a gradient bar and a vertical color bar. Below it, "Foreground Colour (Hex):" is set to "000000". A note states: "Subscribers can also specify image size and resolution, and choose from 6 raster or vector output file types and 4 error correction levels."
- 4 OUTPUT TYPE**: This section is partially visible at the bottom.

On the right side, a "QR CODE PREVIEW" section shows a generated QR code and a "DOWNLOAD QR CODE" button.
